Hi Ann,

Do you know if the July letter was sent certified?

Subject: Return of San Jacinto Letter

The EPA received a letter dated July 19, 2013, regarding the San Jacinto site, with attached documents that apparently were privileged and produced in error. We have received a request for the return or destruction of the attached documents.

The cover letter was addressed to the Regional Administrator, Stephen, Gary and Valmichael, with copies to Pam Phillips and to me; it was signed by Earnest Wotring of the law firm of Connolly Baker. Bob Werner will be checking with you to make sure that we have located and retrieved all the copies, and will also be checking the imaged files.

Thank you for your assistance,

Anne Foster
